

S. No	Question	Choice A	Choice B	Choice C	Choice D	Answer
1	Which tool is commonly used for communication on set?	Email	Phone	Letter	Walkie-talkie	D
2	Which piece of equipment controls the focus of the shot?	Lens	Filter	Tripod	Viewfinder	A
3	Which tool is used to clean a camera lens?	Wipe	Water	Brush	Air blower	D
4	Which technique helps achieve smooth focus pulls?	Zooming	Racking	Panning	Tilting	B
5	Which camera setting directly affects the depth of field?	Shutter speed	ISO	Aperture	White balance	C
6	Which device is used to stabilize the camera during handheld shots?	Tripod	Gimbal	Dolly	Slider	B
7	Which tool is commonly used for cleaning camera sensors?	Lens cloth	Water	Wipe	Sensor swab	D
8	What part of the camera requires special care to avoid damage during cleaning?	Sensor	Viewfinder	Tripod	Lens	A
9	Which component should be checked if the camera displays a blank screen?	Memory card	Viewfinder	Display settings	Lens	C
10	What should be included in the documentation for each camera setup?	Battery percentage	Equipment checklist	Focus distance	Lens settings	B
11	Which tool is often used for tracking shots?	Dolly	Tripod	Mic	Flag	A
12	Which component directly controls the brightness of an image?	Focus	Lens	Tripod	Exposure	D
13	What effect does a wide aperture (e.g., f/2.8) have on depth of field?	Deep	Bright	Shallow	Dark	C
14	What is typically used to achieve high-angle shots?	Crane	Tripod	Dolly	Gimbal	A
15	Which term describes the process of securing equipment for stability during a shot?	Rigging	Framing	Panning	Editing	A
16	_____ is the process to ensure that the footage is easily accessible and organized.	Filming	Directing	Framing	Cataloging	D

17	What is crucial to ensure media assets are organized and easy to locate?	Framing	Filming	Labeling	Lighting	C
18	What should be adjusted if shots are too dark or too bright?	White balance	Exposure	Filter	Frame rate	B
19	Which tool is commonly used to plan and organize shot schedules?	Tripod	Camera	Call sheet	Script	C
20	What is essential to check to ensure the footage aligns with the project's visual style?	Aesthetics	Sound	Budget	Speed	D
21	What is crucial to ensure during the media download process?	Backup	Framing	Shutter speed	Exposure	A
22	Which cloud service is often used for securing digital backups?	Google assistant	Google Drive	Google Chrome	Google calender	B
23	Which method is useful for organizing files by project?	Framing	Coloring	Editing	Categorizing	D
24	_____ is used to track all relevant footage for reference during editing.	Camera	Frame rate	Metadata	Light	C
25	What is essential for checking the playback of downloaded footage?	Media player	Tripod	Gimbal	Monitor	A
26	If audio is not recording, what should be checked first?	Camera lens	Lighting setup	Frame rate	Microphone connection	D
27	Which file type is most commonly provided to the post-production team for editing?	PNG	ProRes	JPEG	MP3	B
28	Which of the following ensures secure data transmission over the internet?	HTTPS	FTP	HTTP	SMTP	A
29	Which camera format is known for its ability to capture high-resolution video for professional production?	SD	VGA	4K	HD	C
30	What is essential to share with the post-production team to ensure proper handling of footage?	File format	Camera model	Lens settings	All of the above	D
